Themes from Interviews

- There’s excitement about what Newberg can become as a destination—“great plans/ideas”
- But also – can we really get it done?
- Newberg is on the edge of significant change & growth – but it MUST maintain its character and access for locals
- We are seeing increasing visitor demand
- In its current state, downtown Newberg does not have the experiences luxury travelers seek
- We need better restaurant and retail mix downtown – high quality, farm to table, local/independent boutiques
- There’s a growing cadre of young makers/entrepreneurs setting up lives/businesses in Newberg
- There’s more opportunity for businesses to collaborate than is being taken advantage of
- Everyone is anxiously hoping for the bypass to improve the downtown experience/noise/traffic
- There’s a lack of overnight lodging
- There’s a lack of understanding of the visitor marketing and services the Chamber already provides
- Chamber is set up & resourced more to serve their business members than the tourism industry
- We can’t wait until “Newberg is perfect” to market it. We need to market what we have now
- We need to coordinate with other tourism organizations – get them together and aligned
- We’re creating chaos for the visitor – fractured spending and messaging amongst all these small Destination Marketing Organizations/AVA’s/associations
- Front line staff need to refer guests to each other’s businesses
- There’s a lot of excitement around the Cultural Center – its expansion and arts in general in the community. Newberg can really become an arts destination.
- We need ONE events calendar
- There’s excitement around a signature music/makers/cultural festival or event that could put Newberg on map as a destination
Future Vision - Newberg as a Tourism Destination

Newberg is Oregon’s authentic gateway to Oregon Wine Country—a vibrant, beautiful, inviting town, developed with care and livability for the local community, but attracting and serving a growing base of wine country explorers from around the West.

Enveloped by miles of rolling hills dotted with filbert orchards, farms, and over 200 world-class wineries in a 30-40 miles radius, Newberg is the basecamp for wine country exploration and agri-tourism, whose quality downtown experience matches the acclaim of the surrounding countryside and its award-winning products.

Galleries, farm to table eateries, wine tasting rooms, unique shopping, breweries, an upper-mid tier independently owned hotel with a rooftop bar, and a thriving farmers market populate a walkable downtown. A rich tableau of public art, performances, sidewalk cafes, pocket gardens, and unique boutiques encourage more time in town for shopping and wandering.

This vibrant downtown is connected to its river – in fact it’s the ONLY small Oregon wine country town with fully developed Willamette River access for paddlers, boaters, anglers and more. A network of trails for hikers and cyclists from Parrett Mountain to Main Street to the Willamette Valley Scenic Bikeway attracts active adventurers from urban areas who will come to recreate, then enjoy our local wine, food and beer.

These visitor experiences thrive due to a well-networked group of tourism businesses, local associations and city leaders who support each other, and who are aligned behind a set of effective marketing strategies that attract luxury wine travellers, valley adventurers and a burgeoning group of millennials enticed by our maker culture.

All this creates a ripple effect of new businesses that support the makers and producers and visitor economies. Newberg feels like a place of economic vitality and sustainability for the local community. Residents talk with even more pride about how their town has grown, and how now, more than ever, it feels like a place they can raise their families and thrive.
TOURISM PLAN GOALS

1. Tourism bolsters Newberg economy in measureable ways
2. Newberg is a destination of artisan makers and doers
3. Tourism funding and industry partners catalyze downtown development, and creation of new experiences for target audiences
4. The tourism organization and strategy engage and energize local tourism partners and demonstrate healthy partnership between the private sector and city
5. Moon shots – tourism encourages sustainable development that benefits the local community and enhances the visitor experience
TOURISM PLAN
3 pronged approach to success

DESTINATION MARKETING
Destination Marketing

• Successful destination marketing helps achieve the overarching goals of an area’s tourism plan.

• Destination marketing organizes a place’s experiences and services (product) then communicates them in a way (positioning/branding) that inspires an identified target audience to visit that destination & consume those experiences.

• Successful marketing promotes the destination’s benefit and real value to its audience, not just a list of attractions.

• The destination marketing plan will be developed by the new Tourism Organization and its board, and will consist of:
  – Goal(s) and measurable objectives
  – Target audience(s)
  – Brand positioning and messages
  – Tactics (e.g., PR, advertising, collateral, social media)
  – Budget
  – Timeline
  – Measurements

DEFINING OPTIMAL TARGET AUDIENCE(S)

• Travels to the Valley primarily for wine, BUT they really want recreation component – think bikes on a rack/kayak on roof—opportunity to engage large volume of adventurers in 300 mile radius. It’s about the combo experience
• They’d rather cycle from winery to winery—they want to earn their indulgences
• Kayak then cooking class
• Can be high income visitors; cyclists spend 20% more than typical visitor
• Age 35-55
• Portland Metro, Eugene, Seattle
• Tech savvy and avid social media users

Are we ready for them: Somewhat
• Invest first tranche of funds to build trail connectors, integrating parks & tourism, river access enhancements for paddlers (not just motorized boaters), better wayfinding
• Recruit bike & paddle rental shop or kiosk

What we can do in the meantime:
• Inventory all trails & recreation and feature prominently in our website & marketing
• Develop short term map printed & online that features downtown on one side and trails/rec/wine country etc. on the other
• TRAIN front line staff on visitor guest service and referral system between businesses
Millennial Explorers

PROFILE:

• 21-36
• Willing to make their own adventure—okay if a destination is “up & coming”—they like less discovered/emerging places
• Growing in affluence—important to build affinity now for your destination
• Stay at Airbnb & smaller hotels (e.g., McMenamins)
• Think Astoria 5 years ago (“Historically hip”)
• Love craft breweries/distilleries, quality local food...very discriminating taste
• Caravan coffee, Wolves & People, Downtown wine tasting rooms, local authentic food, Ruddick Wood Tavern
Millennial Explorers

Where to find them:
• Food co-ops, CSAs, local grocers, New Seasons, Farmer’s Markets
• Cultural creatives, young entrepreneurs, early in careers, bike makers, chefs, high end bartenders
• Might not own cars
• They rather spend money on great food and experiences than a fancy hotel – experiences over things

• Hugely event driven: Whiskeytown, Oregon Brewers Festival, Negroni Social, Cocktail Week
• HIGH: Instagram/Snapchat; Youtube, Stay Wild, Lucky Peach, Willamette Week, Eater, Portland/Seattle Monthly, following chefs

Are we ready for them: Somewhat
• Consistent business hours of shops/restaurants/wineries

What can we do now:
• Create curated itinerary of relevant shops/maker spaces/restaurants etc. geared to this audience
• Create stories featuring items like classes; highlight these activities in visitor guide, website etc.
• TRAIN front line staff on visitor guest service and referral system between businesses
George Fox Network

PROFILE:
• 30,000 people come to George Fox every summer
• Visiting students & alumni throughout the year
• Sports teams / fans and friends/family of athletes
George Fox Network

Opportunity to have them stay, experience and spend more locally

Where to find them:
• Alumni club
• Parent communications
• Athletics

Are we ready for them?: Yes, except...
• Need upper/mid-level independently owned hotel downtown

What we can do right now:
• Develop communications program with University to provide visitor information to audiences above
• Determine what experiences are best suited for GF visitors – develop itinerary/suggestions for them and communicate through GF channels
Oregon Wine – Especially in Willamette Valley - is a PREMIUM Product

Oregon Wine Board commissioned research to better understand premium wine consumers and attitudes and perceptions of Oregon wine vis a vis competing wine regions

**High Frequency High End:** Consume wine at least a couple times a week and purchase wine over $20 at least monthly.

8-10 million consumers in US who fit this profile

- Among audience, Oregon has strong perception of artisan/family wineries

- The Newberg area already attracts this traveler to The Allison, & they tour the exceptional wineries nearby
- BUT downtown Newberg needs additional experiences that meet these traveler’s desires: boutiques, more local restaurants (not chains), additional experiences (wine blending / cooking classes), robust arts scene

What we can do in the meantime:

- Develop & promote a very curated Newberg itinerary of specific experiences: E.g., The Painted Lady/Recipe/Ruddick Wood, Elements Art Gallery, Chehalem Cultural Center, Pulp & Circumstance, Valley Wine Merchants, Tasting Rooms, etc. & share through Allison front desk & in their channels

</table>

2. Engage consultant to develop a comprehensive Tourism Action Plan that encompasses the existing Visitor Center as well as new marketing initiatives funded by the 2014 increases in Transient Lodging Tax.
Implementing these strategies will result in:

• Increase spend
• Stay another day
• Increase shoulder and off season travel
• Experiences that build Newberg’s cache as a haven for makers and connoisseurs
• Drive downtown traffic (and bike traffic) and spend
• Make Newberg more wonderful for people who live there
• Increase businesses related to these industries (vertical wine industry integration, suppliers to makers, etc.)
MOON SHOT: RIVER TOWN

What: Downtown Newberg is connected to the Willamette River. Downtown evolves south. Retail, restaurants, bike lanes & sidewalks encourage river to downtown flow.

River access is enhanced. Public space improvements include riparian enhancements, outdoor event space, possible campsites.

Why: Outdoor recreation meets wine country. Unique combination of experiences that appeal to high value market, proximity to downtown and increased spend. Significant lack of water recreation near urban centers.

Partners:
• Chehalem PRD
• Rental/Operator
• Yamhill County
• Oregon State Parks
MOON SHOT: MAKERS/CULTURE/MUSIC FESTIVAL

What: A signature event that showcases Newberg’s makers culture, and capitalizes on the booming music festival scene while building a destination brand.

Champoeg State Park and local hotels host overnight visitors. Tasting and making classes, hosted by local brewers, winemakers, chefs and artists, spread attendees out throughout the park and city. The festivals growth parallels Newberg’s maturation as a destination, and cements its reputation as the makers destination.

Whatever happened to the Champoeg amphitheater?

For a five-year stretch in the 1990s, the open air amphitheater on the west side of Champoeg State Heritage Area was a prominent part of the park’s summer programming. Origina

MOON SHOT: PASSENGER TROLLEY

**What:** A passenger trolley connecting The Allison, Vineyards, downtown and waterfront

**Why:** Unique asset, elevate in-destination transportation, curate experience, avoid congestion

**Comp:** Trolley Line in Astoria
MOON SHOT: REINVENT THE OLD MILL SITE

What: A mixed use development that connects locals and visitors to the Willamette River. The development turns a liability into a centerpiece of sustainability, culture, outdoor recreation, events, and serves as a public square.

Comps:
• Oregon City, OR, Pelican Site including Riverwalk and potential whitewater center, which will create a roadmap, and create demand.
What problem are we solving?

• Can you fill the visitor’s day(s)?
• What can the visitor access?
• Are you maximizing visitor’s value?
• What makes Newberg unique?
What Happens Next?
Destination Tourism – Successful Approaches

• 3 - 3 - Sleep
  – Encourages visitors to build their days around breakfast/activity/lunch/activity/dinner/activity – overnight

• 10 - 10 - 10 after 5
  – A successful visitor destination should have 10 unique eateries (bakery, café, restaurants, wine tasting rooms), 10 unique retail shops; 10 of those establishments from both categories need to be open after 5 pm
Destination Development & Marketing Strategy

Newberg will invest TLT funding in **DESTINATION DEVELOPMENT** projects that enhance the destination, particularly those that create unique wine country/culinary tourism-oriented experiences and links to outdoor recreation. Much work needs to be done before the City of Newberg is competitive as a stand-alone wine country destination: downtown renovation, recruitment of an upper/mid tier lodging property, more restaurants, shopping, signage and wayfinding, to name a few.

Newberg is uniquely positioned to appeal to visitors interested in experiencing wine country and outdoor recreation experiences, or wine country and creative arts. While the foundation for outdoor recreation and arts experiences exists, **they are still only about 80% ready for a quality visitor experience.** TLT funds should be focused on creating experiences that complete the 20% - connecting wine country to outdoor recreation, and arts experiences. Once these types of experiences are refined, TLT funds should be awarded through a granting program that aligns with the destination development strategy.

From a **DESTINATION MARKETING** standpoint, Newberg should focus on growing their marketing efforts over time. **Our recommendation is that destination development should be the primary focus of funding projects for 2016-2018;** however, developing early, effective key marketing tools can be wins in activating & maximizing the spend of “low hanging fruit” audiences already coming to the area. Focus on your current strengths, then in a year or two, grow your marketing to attract new audiences when the destination is more developed.

*(see slides 84-85 for timeline)*
Framework

This framework guides decision making for TLT investments and aligns with criteria for project selection.

It promotes economic development encouraging visitors to:

- Stay another day
- Increase visitor spend
- Shoulder and off-season visitation
- *Create unique wine country experiences that distinguish Newberg from nearby destinations*

It prioritizes destination development and marketing that:

- Connect visitors to trails, parks, and the Willamette River
- Provides access to the Willamette River
- Promotes and provides access to the arts, especially experiential arts, i.e., cooking classes, cultural center classes
- Improves the downtown experience
- Builds foundational tools for destination marketing
  - Targets outdoor recreation and George Fox travelers
Guidelines for how TLT Dollars can be spent

The TLT tourism amount can be spent on one of 3 categories (ORS 320.300):

(7) **Tourism promotion** means any of the following activities:
(a) Advertising, publicizing or distributing information for the purpose of attracting and welcoming tourists;
(b) Conducting strategic planning and research necessary to stimulate future tourism development;
(c) Operating tourism promotion agencies; and
(d) Marketing special events and festivals designed to attract tourists.

(8) **Tourism promotion agency** includes:
(a) An incorporated nonprofit organization or governmental unit that is responsible for the tourism promotion of a destination on a year-round basis.
(b) A nonprofit entity that manages tourism-related economic development plans, programs and projects.
(c) A regional or statewide association that represents entities that rely on tourism-related business for more than 50 percent of their total income.

(9) **Tourism-related facility** means:
(a) A conference center, convention center or visitor information center; and
(b) Other improved real property that has a useful life of 10 or more years and has a substantial purpose of supporting tourism or accommodating tourist activities.

Tourists are defined as follows:

10) **Tourist** means a person who, for business, pleasure, recreation or participation in events related to the arts, heritage or culture, travels from the community in which that person is a resident to a different community that is separate, distinct from and unrelated to the persons community of residence, and that trip:
(a) Requires the person to travel more than 50 miles from the community of residence; or
(b) Includes an overnight stay.

How TLT Funds Can Be Used
- Newberg City Attorney
Newberg City News Article
Written by: Truman Stone, City Attorney
June 2015

There has been discussion in the community about use of the Transient Lodging Tax revenue (TLT), including an editorial in the April 1, 2015 Newberg Graphic. This type of debate is evidence of a vibrant, active and involved community. Many good and creative ideas have been suggested.

Use of TLT revenue is limited by state statute and the intent of this article is to explain TLT, explore state restrictions, and consider some proposed uses.

Transient lodging taxes are those taxes imposed on someone who provides temporary overnight lodging, typically hotels and motels, but also bed and breakfast facilities and short-term rental of apartments or residences. Under the Newberg Code, any stay under 30 days is subject to this tax. The customer owes the debt, but the obligation to collect the tax is placed on the business (the business receives compensation for collection of the tax).

Newberg first enacted a TLT in 1976.

In 2003, the Oregon Legislature got into the lodging tax business when it imposed a 1% tax statewide, which is used to fund the Oregon Tourism Commission. That bill (HB2267) also imposed new limitations on Cities and Counties that collect TLT. For existing local lodging taxes, the State locked in a formula on how much of the receipts must be used for tourism; that is the formula the local government used on July 2, 2003. For new or expanded TLT amounts, the State requires 70% of the proceeds to be used for "tourism promotion or tourism related facilities." The statutory definitions are the key to understanding these limitations.

In sum, the history shows that the legislature did not intend to categorically exclude roads, sewers, sewer plants, and other transportation facilities from the definition of "tourism related facilities." If a specific road or sewer, etc., meets the criteria in ORS 320.300(9)(b), including having a substantial purpose of supporting tourism or accommodating tourist activities, it would qualify as a "tourism-related facility." But legislators cited only three very limited types of roads and sewers that might qualify: roads that provide access to natural and recreational facilities, other improvements to recreational facilities, which could include sewers, and a restroom in a park.

(a) Advertising, publicizing or distributing information for the purpose of attracting and welcoming tourists;
(b) Conducting strategic planning and research necessary to stimulate future tourism development;
(c) Operating tourism promotion agencies; and
(d) Marketing special events and festivals designed to attract tourists.

The State defines “tourism-related facility” as:

(a) a conference center, convention center or visitor information center; and
(b) other improved real property that has a useful life of 10 or more years and has a substantial purpose of supporting tourism or accommodating tourist activities.

Conference, convention, and visitor information centers are also statutorily defined terms with specific meanings.

As you can see, there is no mention of streets, sidewalks, or parking lots, but an astute reader would deduce that these are improvements to real property with a useful life of 10 years or more, that might be included in subsection (b).

This question was presented in 2008 to the Attorney General by the head of the Oregon Tourism Commission. After extensive analysis, the Department of Justice stated:

In sum, the history shows that the legislature did not intend to categorically exclude roads, sewers, sewer plants, and other transportation facilities from the definition of “tourism related facilities.” If a specific road or sewer, etc., meets the criteria in ORS 320.300(9)(b), including having a substantial purpose of supporting tourism or accommodating tourist activities, it would qualify as a “tourism-related facility.” But legislators cited only three very limited types of roads and sewers that might qualify: roads that provide access to natural and recreational facilities, other improvements to recreational facilities, which could include sewers, and a restroom in a park.

Cont’d next page
Those types of roads and sewers either are part of tourist attractions or directly serve them. In that sense, those facilities might “draw” tourists to the extent that the attraction itself draws tourists. No legislator stated any intent to include roads and sewers merely because they are used heavily by tourists. Consequently, the history suggests that the legislature may have intended local infrastructure such as roads and sewers to be “tourism-related facilities” only to the extent that they either are part of or directly serve tourist attractions. [emphasis added]

We conclude, based on the text, context and history of ORS 320.300(9) and ORS 320.350(5) and (6) that the legislature most likely intended local roads, sewers, sewer plants, and transportation facilities to qualify as “tourism-related facilities” only if they drew tourists in themselves, directly serve a specific tourist attraction (such as an access road), or are part of the infrastructure of a specific tourist attraction (such as a restroom and the on-site sewer line). The legislature most likely did not intend “tourism-related facilities” to encompass roads and other infrastructure simply because they are used, even heavily, by tourists as well as locals.

Given this analysis of the statutory restrictions and the intent of the legislature, what are we to conclude? While there is no bright line test, some general observations can be made.

First, using TLT tourism dedicated funds to repair sidewalks, install bulb outs, or place benches in the downtown would be a violation of law. Second, under the same analysis, the repair of the City Lot on Second Street [aka Merchant’s Lot] with TLT tourism dedicated funds would also be a violation of law, since the lot is used primarily by downtown merchants or customers, tenants who live in downtown apartments, and City staff.

Installation of a public restroom might be a “tourism-related facility,” depending on whether or not it was located adjacent to a specific tourist attraction.

TLT tourism dedicated funds are restricted in the way the funds are spent, but there is no requirement that funds be spent in any given year. If there is a community desire to build tourism-related facilities, then the TLT funds might be banked until there are sufficient funds to either partially or fully fund a facility. This would take a long-range vision and plan to implement.

There is no doubt that City infrastructure, both public and private, is in need of repair. However, the TLT tourism restricted funds are not legally available to address these needs. The City is working on a process to administer the TLT funds, which will give structure and ensure legal compliance in the expenditure of these amounts.
