

## APPENDICES

### APPENDIX A: FIGURES

Figure 1.....	City Zoning
Figure 2.....	Floodplains
Figure 3.....	Soils
Figure 4.....	Wetlands
Figure 5.....	Existing System – Pipe Diameter
Figure 6.....	Existing System – Pipe Material
Figure 7.....	Lift Station Basins
Figure 8.....	Existing System Modeled Facilities
Figure 9.....	Flow Monitoring Locations
Figure 10.....	Existing System Evaluation – Peak Flows (PIF5)
Figure 11.....	Existing Inverse and Critical Slopes
Figure 12.....	Future Growth Areas, 20-Year and Buildout <i>See Note 1</i>
Figure 13.....	Trunk Line Basins
Figure 14.....	20-year System Evaluation – Peak Flows (PIF5)
Figure 15.....	Buildout System Evaluation – Peak Flows (PIF5) <i>See Note 1</i>
Figure 16.....	Hess Creek Alternatives
Figure 17.....	Springbrook Road Alternatives <i>See Note 1</i>
Figure 18.....	South River Street Alternatives <i>See Note 1</i>
Figure 19.....	Additional Improvements & Lift Station Consolidation
Figure 20	} CCTV Figures (19-23)
Figure 21	
Figure 22	
Figure 23	
Figure 24	
Figure 25.....	2017 Smoke Testing Priorities
Figure 26.....	Smoke Testing Results
Figure 27.....	I/I Priority CIP Projects
Figure 28.....	Collection System CIP <i>See Note 1</i>

*Note 1: See Appendix K, Addendum Riverfront Master Plan (Adopted 5/3/21)*

APPENDIX B: PLANNING CRITERIA

APPENDIX C: PUMP STATION INFORMATION

APPENDIX D: HYDRAULIC EVALUATION INFORMATION

APPENDIX E: COST ESTIMATE DETAILS *See Note 1*

APPENDIX F: PRIORITY 1 PROJECT SHEETS *See Note 1*

APPENDIX G: I & I

APPENDIX H: WWTP EXISTING DEFICIENCIES

APPENDIX I: WWTP IMPROVEMENTS

APPENDIX J: SDC REPORT

***APPENDIX K: 2021 Technical Update, Addendum Riverfront Master Plan***

*Note 1: See Appendix K, Addendum Riverfront Master Plan (Adopted 5/3/21)*
