PROJECT UPDATE AND PAVEMENT RECONSTRUCTION NOTICE

Información en Español #503-554-7763 email: engineering@newbergoregon.gov

The Construction of N Elliott Road has been moving along despite the challenge of utility conflicts with existing franchise utilities since groundbreaking in August 2022.

The progress of the project has now reached the next milestone with the reconstruction of the pavement. **N Elliott Road from the Newberg High School to the E Haworth Avenue intersection will be closed to traffic starting Friday, June 15, 2023.** (Local traffic only will be allowed while the street is closed.) This northern half of N Elliott Road will be re-opened for all traffic on **Thursday, August 31, 2023.**

Traffic detours will be implemented and signed accordingly. Pedestrians will have a designated path. Please observe the traffic detour and control signage.

The reconstruction of the southern half of N Elliott Road from the E Haworth Avenue intersection to Highway 99W will follow immediately in fall 2023 (September and October).

WHAT YOU CAN DO:

- Expect traffic delay: **Take N Villa Road or N Springbrook Rd to detour around N Elliott Road.**
- Observe traffic control and detour signs, watch for workers in construction zone, and drive with care please.

Business owners, property or homeowners, and residents, are encouraged to visit the project webpage for updates at:
