**RE: Notice of Construction  
S. River Street Waterline Improvement Project**

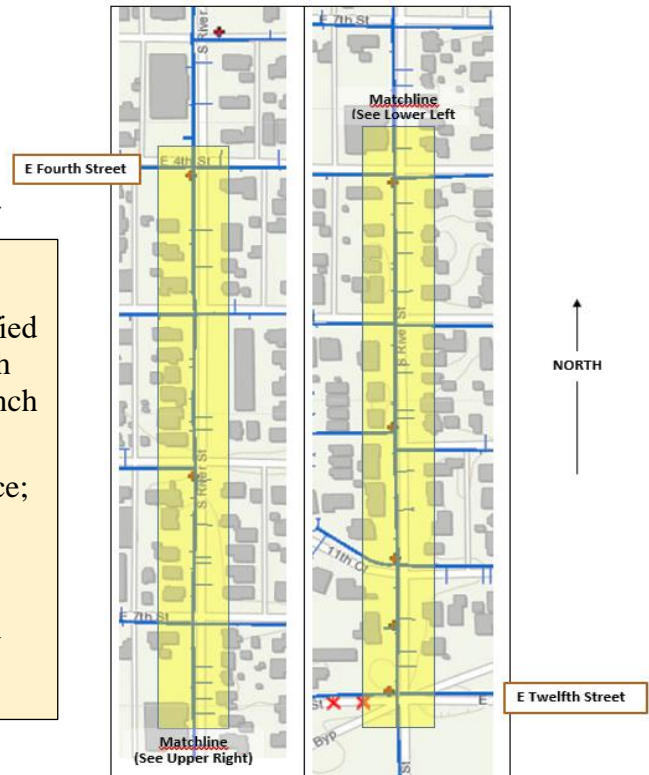

Información en Español #503-554-7763 email: [engineering@newbergoregon.gov](mailto:engineering@newbergoregon.gov)

**Project Background**

The City’s Water Master Plan, updated in 2021, has identified the existing 6-inch diameter cast iron water pipeline beneath S. River Street for replacement and upsizing. The new 12-inch diameter ductile water line will improve the following:

1. Address failing pipe due to aging/higher maintenance;
2. Increases fire flow capacity; and
3. Provides seismic resiliency to your water system.

**Trench Line Excavation, Inc. (TLX)** authorized for this project by Council Resolution No. 2022-3823.

**CONSTRUCTION:**

**Trench Line Excavation, Inc. (TLX)** will begin survey work on October 3, 2022. **Construction will begin at the north end at E. Fourth Street on October 10, 2022.** Work will proceed block-by-block south to E. Twelfth Street. Construction is anticipated finish near the end of December 2022.

The Contractor will put in place a traffic plan to detour traffic around the construction zone when necessary. TLX will shut down one block of street at a time for construction. Emergency vehicle and local access will be allowed. Work hours are 7:00 am to 5:00 pm Monday through Friday each week except for holidays. South River Street will re-open to traffic at the end of each workday.

**WHAT YOU CAN DO:**

- Expect traffic delays due to construction.
- Observe traffic control signs, watch for workers in the area, and drive with care.
- Follow detours and closure signs for everyone’s safety.

Homeowners, and residents, are encouraged to visit the project webpage for updates at: <https://www.newbergoregon.gov/engineering/project/s-river-st-waterline-improvement-project>.

If you require accessibility accommodations or have concerns, please reach out to the contacts listed below so we can resolve the issue. We appreciate your patience during this important work.
