§15.302.030 - TYPE IV COMPREHENSIVE PLAN/ZONING MAP AMENDMENT CRITERIA

The City may initiate plan map amendments affecting large areas and multiple ownerships under the Type IV procedure. No public notice is required to initiate the amendment. Initiation must be done by resolution of the Planning Commission or City Council. These map changes include those that have widespread and significant impact beyond the immediate area of change.

Amendment criteria. The city must demonstrate:

- a) The proposed change is consistent with and promotes the objectives of the Newberg Comprehensive Plan and this code;
- b) There is a public need for a change of the kind in question;
- c) The need will be best served by changing the classification of the particular piece of property in question as compared with other available property.

If you are requesting approval of a comprehensive plan / zoning text or map amendment, please provide a written response to each of the criteria listed above. The comprehensive plan / zoning text or map amendment cannot be granted unless the above criteria have been satisfied. The burden of proof, or demonstration of need for the amendment is the responsibility of the applicant and not the City. If you are requesting comprehensive plan or zone change approval, please respond to the following questions:

- a) List specific Newberg Comprehensive Plan and the Newberg Development Code goals and policies which apply to this project. Is the proposed change consistent with these goals and policies? Explain.
- b) Identify the specific public need for this zone change or comprehensive plan amendment. How does the property meet this need?
- c) Identify why the public need is best served by changing the classification of this property as compared to other available property. What is the impact of this proposed revision on the existing vacant land inventory within the City?
